

STUDENT SURVEY

Student Satisfaction: Strength of Science Program

The Measuring Success **Student Survey** is designed specifically to tap into student insights and understanding so that your independent school can act on the student body's collective voice.

Student Surveys are designed specifically to glean data directly from your students — among your best ambassadors for word-of-mouth marketing to prospective students and families.

Understand the drivers of student retention for more targeted recruitment efforts.

Student Surveys will help your school:

- ✓ Measure the school's impact on students academically, socially, and emotionally.
- ✓ Identify areas for improvements in instruction and extracurriculars.
- ✓ Understand the perspective of sub-segments of the school population.
- ✓ Inform long-term strategic decisions.

FEATURES:

- Fully administered online survey with optional customization.
- Comprehensive and in-depth reports.
- Analysis that cuts survey results by a variety of student demographic groups.
- Part of a suite of services (parent, alumni, and student surveys) to help schools make data-driven decisions.
- Private consultation options with Measuring Success to review results and develop a strategic plan.

"In what should be a data-driven world, we have few reliable data points, and the Student Survey is one of the key ones. We've found working with Measuring Success on the Student Survey to be tremendously valuable."

— Rabbi Joseph Beyda,
YESHIVAH OF FLATBUSH

WE LOOK FORWARD TO HELPING!

Finding the right partner to move your school to the next level is key to strengthening your long-term financial sustainability.
